

Chemist Warehouse can help you to **SAVE MORE!**

How?

At Chemist Warehouse we are able to reduce the price of your prescriptions even further when we dispense multiple packets of your medication all at once. Our professional pharmacists are eager to save you money but are also ethically bound to ensure that the quantity of prescription medication you receive is both safe and reasonable. The pharmacist's decision depends upon many factors including; the type of medicines you take, the amount of time you have been taking these medicines and whether your dose is stable and unchanging.

Our pharmacist considers that some of your medications may be suitable for multiple pack dispensing, but would like your Doctor to approve this practice. If you are interested in saving both time and money, please have your doctor complete the form below and return it to our store upon your next visit.

Dear Doctor,

Chemist Warehouse is driven by a desire to ensure all our patients receive the very best in healthcare at the very best prices. Improved health care outcomes are often directly related to improved adherence to medication regimes. Lowering the cost of prescriptions assists patients medication compliance. One way we do so is by dispensing multiple packets of medication to our patients all at once. Our prescription history for your patient indicates we can help save

MR/MRS _____

money on their

_____ by dispensing multiple packs at once

NB: As these are medications not subsidised by the PBS for this patient, this practice is consistent with PBS legislation.

If you are happy for us to do so please complete the form below.

I, Dr _____ permit Chemist Warehouse to dispense multiple packets of medication to Mr/Mrs _____ for the following medications

Signature: _____

Date: _____

(PLEASE RETURN COMPLETED FORM TO CHEMIST WAREHOUSE)
